MAY 2016

## **Important information - Holiday period 2016**

**Dear Distributor!**

As in previous years we now would like to inform you about the holiday period and related order dates.

The very last date to place an order in Sweden to be able to receive the goods before the summer holiday is Friday the **10<sup>th</sup> of June**. Please check your current stock as soon as possible and let us know if you need a delivery before the end of June. The next delivery will not take place until beginning of September provided we get your orders in the second half of August.

This means that the Kibion office in Uppsala will be closed for orders from 10<sup>th</sup> of June until mid-August.

Orders of instrument and consumables from Bremen will be processed until end of June and then again from August.

The Kibion office in Bremen will be manned during summer but with reduced staff and no orders can be handled during July.

Best regards  
KIBION
